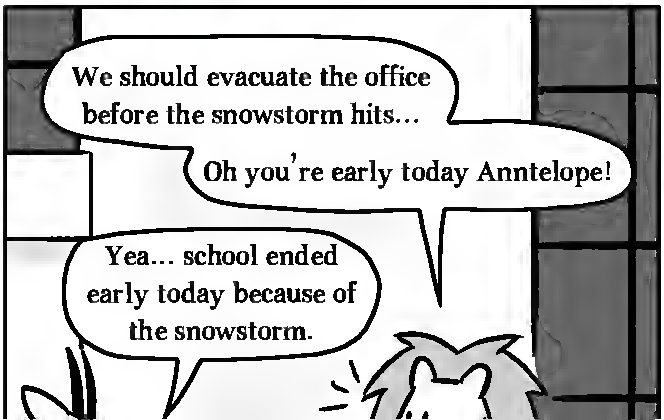
ROAR STREET JOURNAL

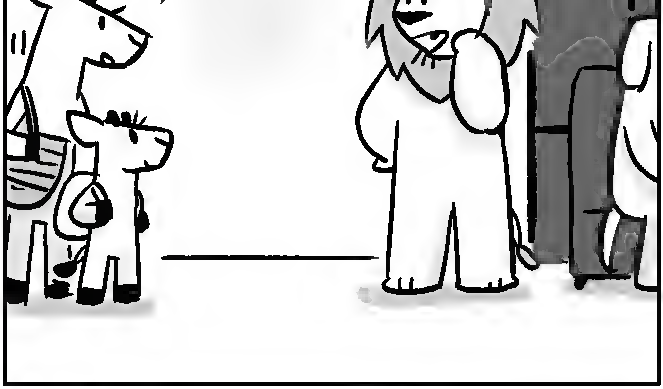
The Day After Tomorrow

News said there's a monster snowstorm coming!

Coincidentally, it's similar to the theme of this movie
Yea, the earth's weather is getting more extreme...



We should evacuate the office before the snowstorm hits...
Oh you're early today Anntelope!
Yea... school ended early today because of the snowstorm.

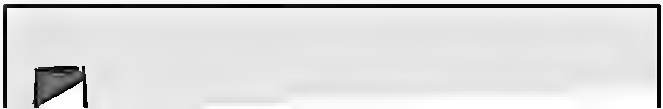


Guys, you should go home early to prepare for the snowstorm!
Stock up some food and stuff...

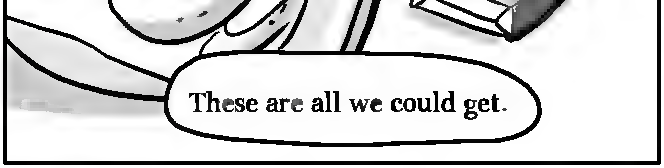
What if we got trapped in the office?
Did we stock up supplies here?

You've got a point.
Yea, we need a backup plan!

Let's stock our office in case of emergency!

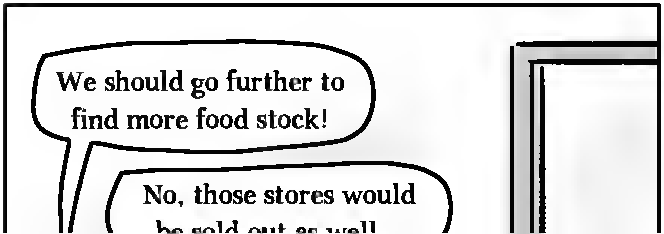


MARSHMALLOW
GUMMY
RAY'S



These are all we could get.

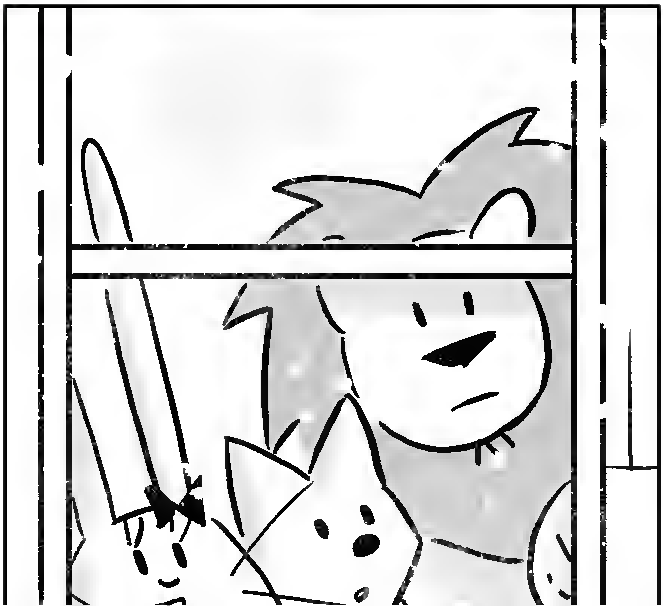
Snacks and playing cards?
How can 14 animals survive with this?
Everything was sold out...



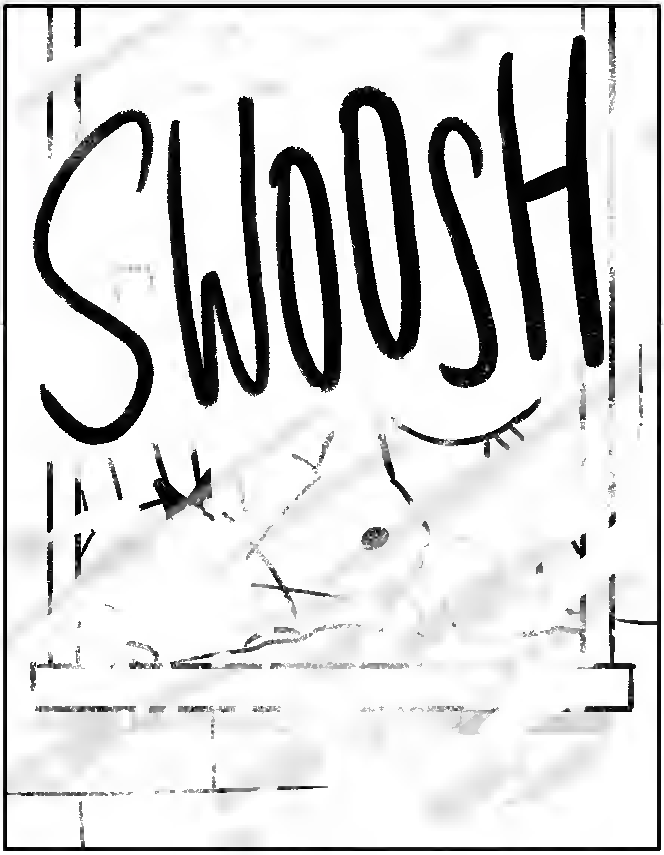
We should go further to find more food stock!
No, those stores would

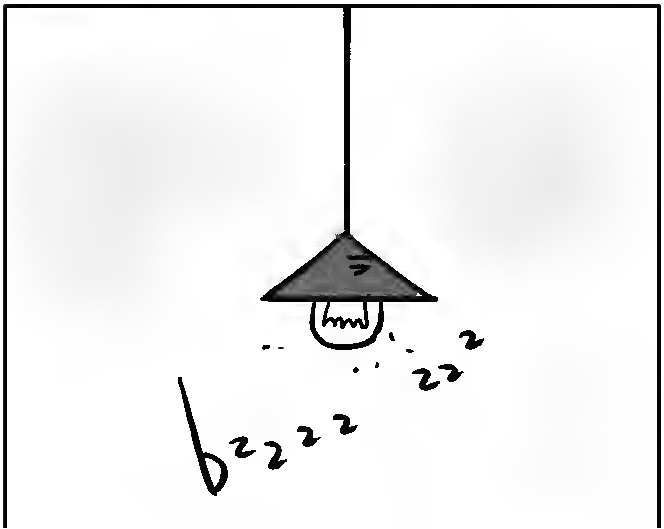
be sold out as well...

Hey guys,
it started to snow!



Isn't it quite romantic?
It doesn't look like a snowstorm at all...





hmm
zzz
zzzz

zap

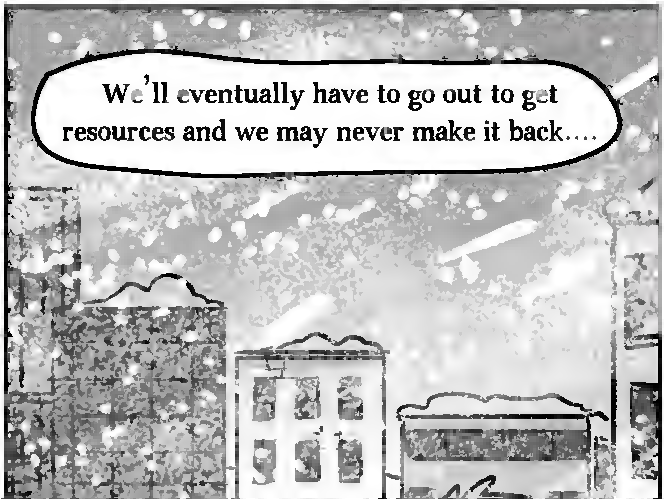
We're trapped!!

There's no electricity!
It's a brown out!
click

click
click

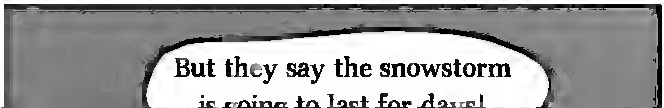
We'll freeze to death!

If not ...we'll starve to death!



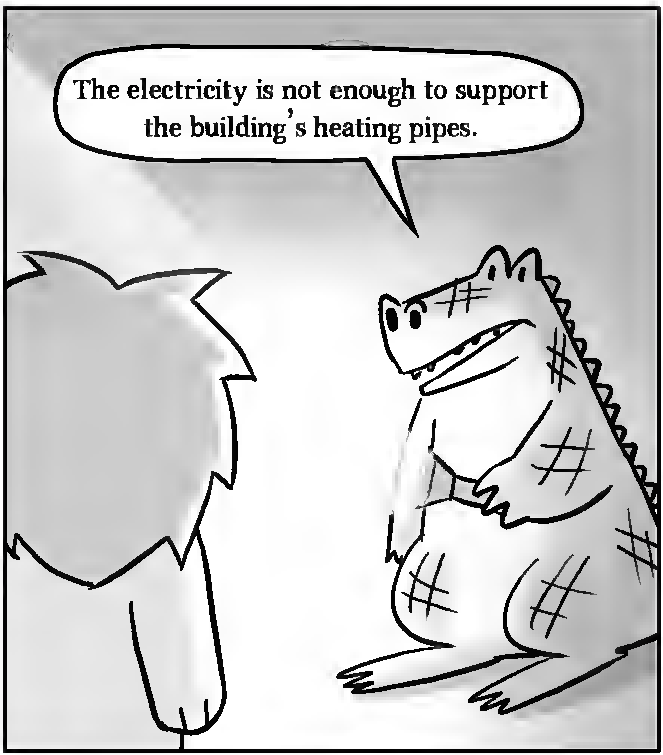
We'll eventually have to go out to get resources and we may never make it back....

We're doomed!!
We're going to be fine, okay?

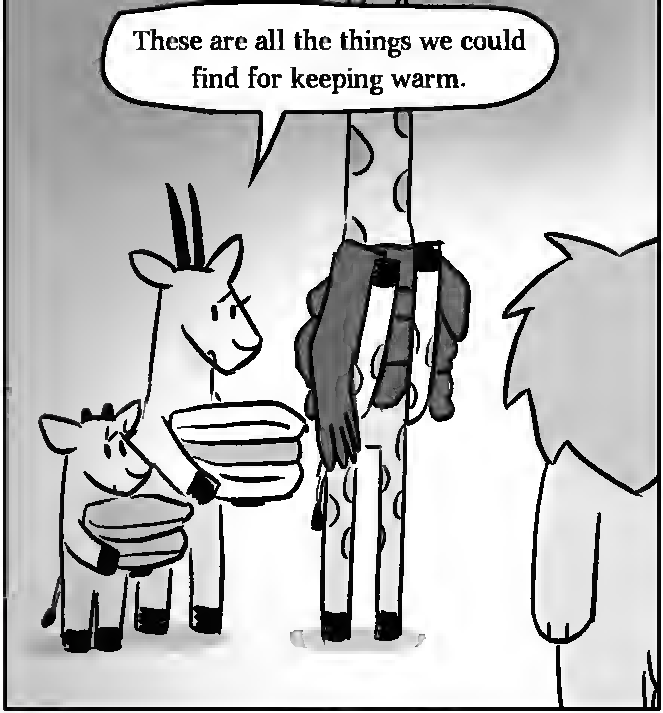


But they say the snowstorm

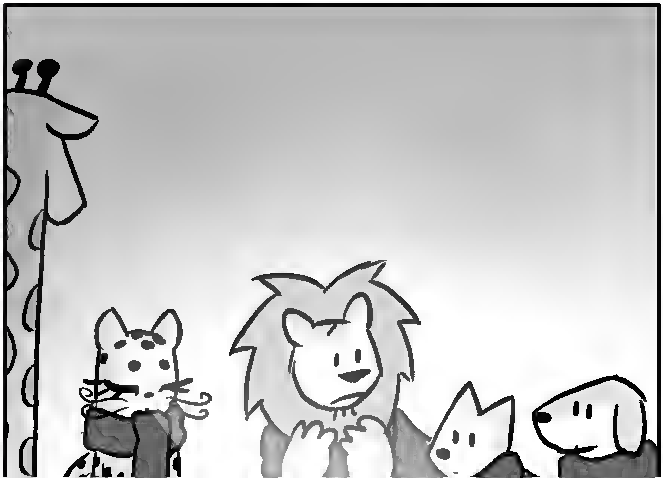
is going to last for days!
We're in a city.
But this also happened in a city!
You watched too many movies...
time to return to reality.

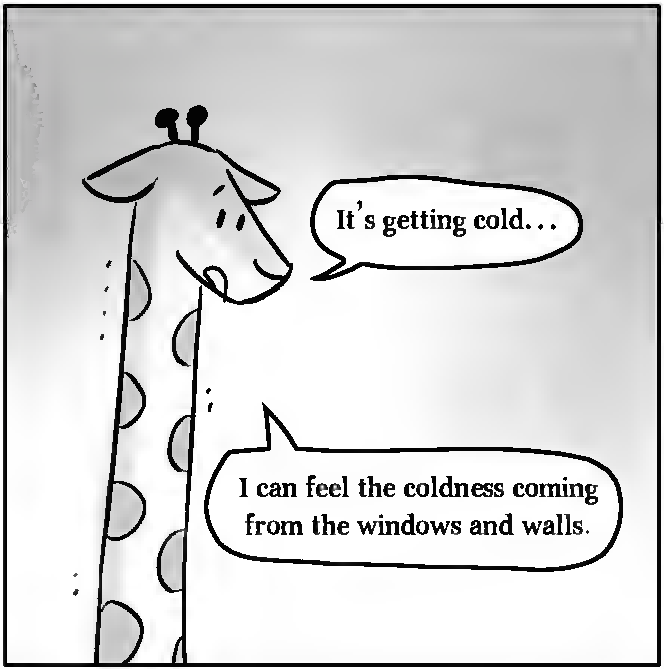


The electricity is not enough to support the building's heating pipes.

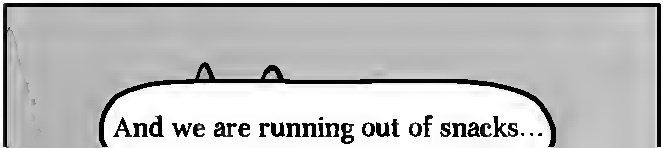


These are all the things we could find for keeping warm.

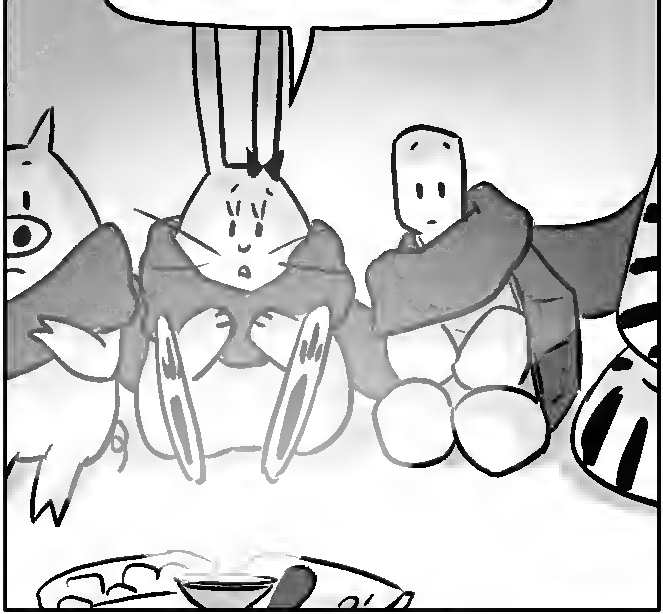




It's getting cold...
I can feel the coldness coming from the windows and walls.

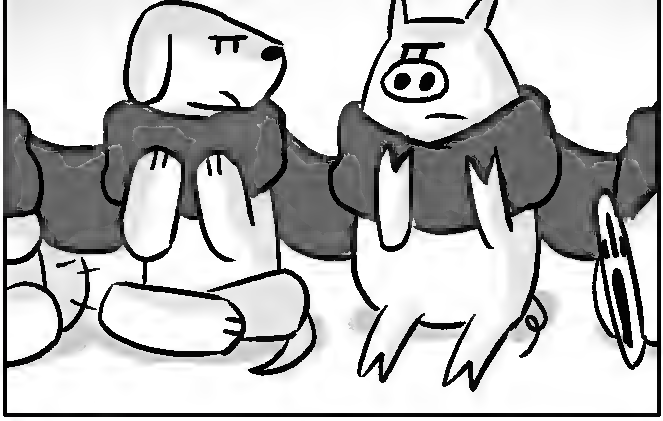


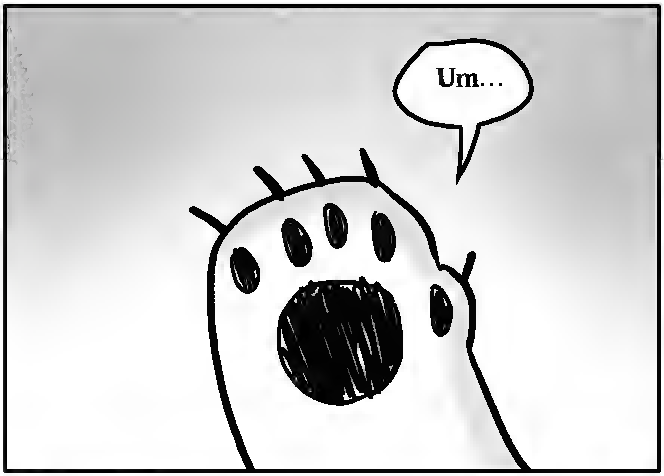
And we are running out of snacks...



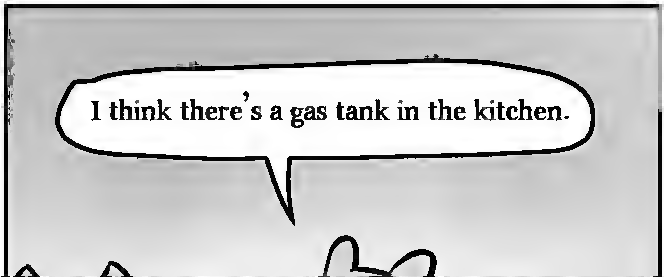
Are we gonna burn books and papers to keep warm?

No!
My books!
No!
My documents!





Um...



I think there's a gas tank in the kitchen.

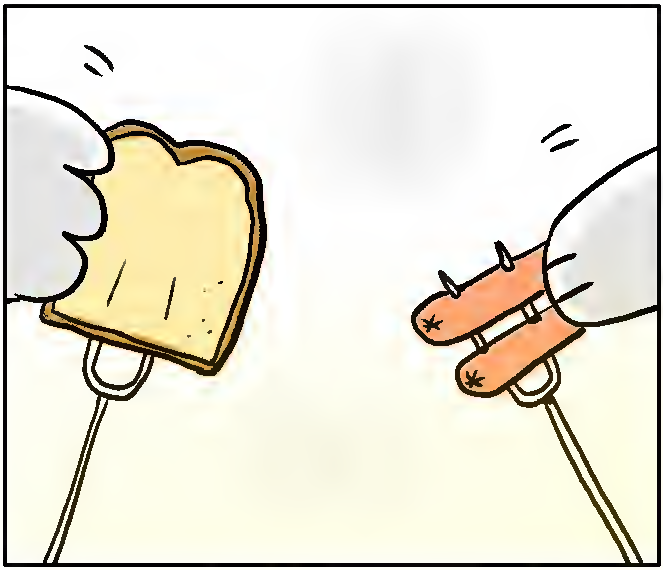
GAS

Fire!
GAS

Don't forget
Po is the polar expert!
We'll be fine with him!

GROOOWLL

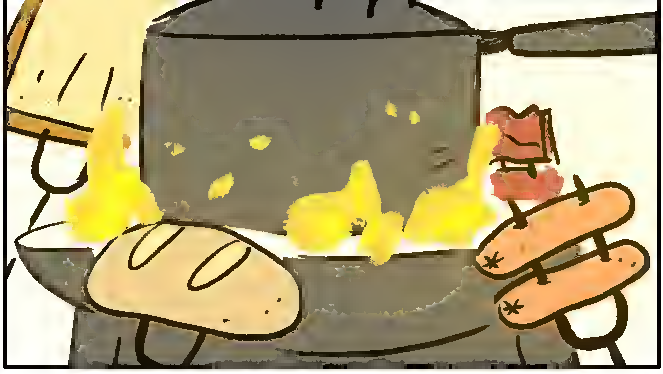
Wait a second.
We have some food in the freezer.
It's the food waste collected from cafes.



Food!

GAS

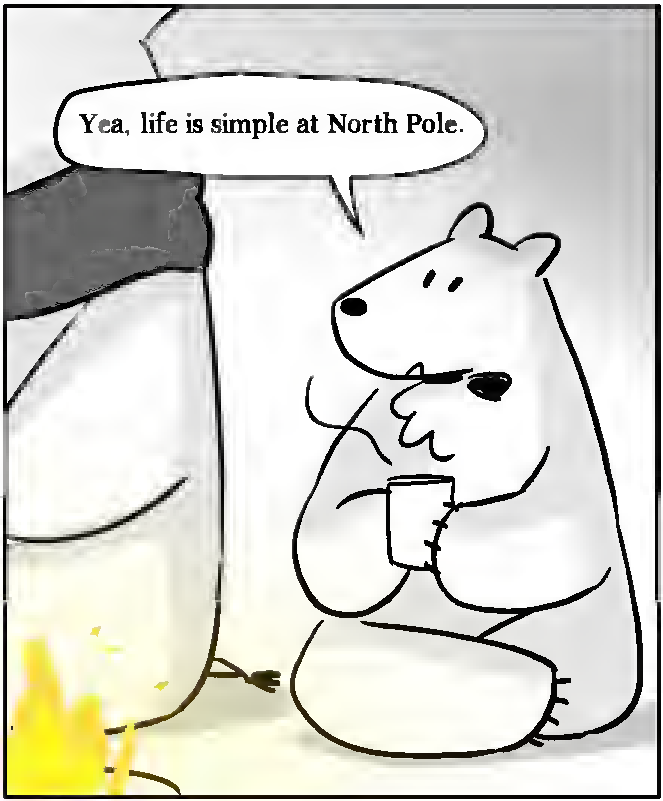
Need to let the smoke out.



Have some hot chocolate.

Po saved our lives…

Po, is this what life is like in North Pole?



Yea, life is simple at North Pole.
